

THOTI POORNACHANDRA

Palamaner,
tpoornachandra8@gmail.com

Motivated and detail-oriented aspiring Software Engineer with hands-on experience in full-stack development using React.js, Node.js, and MongoDB. Skilled in building scalable web applications and integrating AI-driven features, including intelligent code assistance and automation. Developed innovative projects such as an AI-powered code editor, expense tracker, and a DevOps-based operating system concept. Strong understanding of REST APIs, version control (Git/GitHub), and deployment platforms like Netlify. Passionate about leveraging AI and modern development practices to solve real-world problems and continuously enhance technical skills.

EXPERIENCE

INTERN AT INFOTACT SOLUTIONS

25-11-2025 to 25-02-2026

Completed a 3-month internship at Infotact Solutions Pvt. Ltd., Bangalore, working on full-stack web development using React.js, Node.js, and MongoDB. Gained experience in building user interfaces, developing APIs, and collaborating in a team environment.

INTERN

01-05-2025 TO 31-07-2025

Completed a 3-month internship at InternForge, gaining practical experience in software development and working with modern technologies. Contributed to application development, improved problem-solving skills, and collaborated effectively in a team environment.

INTERNFORGE

Bangalore, Karnataka
Worked as Data Engineer Intern

EDUCATION

BACHELOR OF TECHNOLOGY IN COMPUTER SCIENCE ENGINEERING – DATA SCIENCE

MTIEAT (JNTUA)

JUNE 2027

- Distinguished member of the university's Data Science Department
 - Relevant coursework: Data Structures, DBMS, OS, Machine Learning ,Computer Networks
 - CGPA 8.3
-

SKILLS

- Technical Skills: Java, JavaScript, Basic Python
 - Frontend & Backend: React.js, HTML, CSS, Node.js, Express.js, MongoDB
 - Tools & Platforms: Git, GitHub, Netlify, Render, Postman
 - Concepts: REST APIs, Full-Stack Development, AI Integration, Basic DevOps
-

PROJECTS

- AI Code Editor with Assistance
 - Built a web-based code editor with AI-powered suggestions and code execution using React.js and Node.js.
- AI Expense Tracker
 - Developed an intelligent expense tracking application with analytics and automation features using MERN stack.
- DevOps OS (Concept Project)
 - Designed a development environment integrating coding, testing, and AI automation features in a single platform.
- AI Desktop Assistant
 - Built an AI-powered desktop assistant that automates tasks and opens applications based on user commands using Python.
